TENSIONED DUAL MASKING ELECTROL®

Dual Motor Multiple Aspect Electric Screen

- Excellent for video projection applications.
- Same great features as our Dual Masking Electrol screen except screen is tensioned for an extra flat surface for optimum image quality when using video or data projection.
- Tab guide cable system maintains even lateral tension to hold surface flat while custom slat bar with added weight maintains vertical tension.
- Unique “step back” masking design eliminates shadows.
- Silent motor option available. See page 16.

All fabrics will be seamless.

Black masks are raised and lowered to change image format.

For optional remote control operation, see options on pages 50-54.
